

# PowerSafe V Front Terminal Batteries

The PowerSafe® V Front Terminal range of Valve Regulated Lead Acid (VRLA) batteries has been designed specifically for use in applications that demand the highest levels of security and reliability. The new PowerSafe V Front Terminal platform now features proprietary Thin Plate Pure Lead (TPPL) technology which provides extended shelf life, lower corrosion and gas evolution.

Designed to meet the most rigorous international standards, PowerSafe V Front Terminal batteries are recognized worldwide as a premium solution for Telecom applications. The reputation of PowerSafe V Front Terminal batteries for long service life, together with excellent high rate performance, make them ideal for high integrity, high specification systems.

PowerSafe V Front Terminal batteries deliver superior performance while occupying less space than conventional standby power batteries. A range of compact designs, suitable for 19" and 23" racking, provides users with the benefit of increased energy density. With all electrical connections at the front, installation and inspection are both quicker and easier.

## Specifications

- Reliable TPPL technology
- Capacity range: 100Ah -190Ah
- Front terminal connections for fast, easy installation and maintenance
- Suitable for 19" and 23" racking
- UL94 V-0 flame retardant case and lid
- High reliability
- One year shelf life
