

Hawker ArmaSafe Plus Batteries

Today's militaries continue to demand higher standards of combat readiness and more effective management of operational energy. The ARMASAFE Plus 6TAGM battery has been meeting these demands since 2002 and continues to do so every day. The ARMASAFE Plus 6TAGM delivers the power, performance, and reliability necessary to win on the battlefield.

With over 2 million units fielded and installed, soldiers worldwide have come to know our 6TAGM as the "Hawker battery", the "A+" and the "HASP (Hawker ARMASAFE Plus)."

Regardless of the name applied, the ARMASAFE Plus 6TAGM battery remains the original and preferred choice for military vehicle batteries.

- NATO 6T size battery
- 12V, 120Ahr
- Valve Regulated Lead Acid (VRLA)
- Absorbed Glass Mat (AGM)
- Designed and manufactured with proprietary Thin Plate Pure Lead (TPPL) technology
